

# BIOPHOTON REALIGNMENT MIRRORS

## : Renzo Celani and Dr Shabir Pandor

PRE CONFERENCE WORKSHOP 3  
FRIDAY 7<sup>TH</sup> JULY 2017  
9:30AM – 5:30PM

*We are natural light beings with every cell in our body emitting light or biophotons, linking our physical conscious state to our subconscious state. Every time you have an experience it is reflected in your light being. So what happens when our light is disturbed, fractured or distorted and becomes incoherent? It remains in your energy field until it can be healed or coherence can be restored.*

This is the first time we are introducing Biophoton Realignment Mirrors to all healthcare practitioners in the UK, a technique being used by over 100 practitioners in Europe/USA. Developed in 2015 by the natural energy healer, Renzo Celani, Biophoton Realignment Mirrors is a unique way of healing with special mirrors using the body's own light to realign itself into a state of coherence and optimal function.

Biophoton Realignment Mirror Technique ensures that your body receives a clean 'update' from its own emanating light. The body's light is reflected back through a filter and mirror system. This means that cellular reactions are instantaneously being 're-informed' and so, in a 'domino-like' effect, cellular functionality is restored and starts to function as it is meant to.

By using different materials as reflective mediums, such as pure gold, pure silver, and aluminum, it is possible to reflect the whole spectrum of light that naturally emanates from our cells, including a small range of UV and also a near-infrared spectrum.

Come and join us for this unique experience !

Venue : Radisson Blu Portman Hotel, 22 Portman Square, London W1H 7BG

Workshop Fee : £195 / EARLY BIRD RATE £150 (Lunch Included)

Please note: Early bird rate only applies to bookings before 10<sup>th</sup> May 2017
